Integrated Care Critical Success

One Team

- An Integrated Care Lead will be the primary point of contact for patients/caregivers and will work with the in-patient clinical team and home care team
- Continuity of care will be maintained by having by one consistent care team with access to one shared digital health record

24/7 Access to Support

- 24/7 phone line available to patients/caregivers post pre-admission appointment
- Patients/caregivers all get a Program intro call, in-person meeting(s) in hospital and welcome phone call from Integrated Care Lead

One Fund

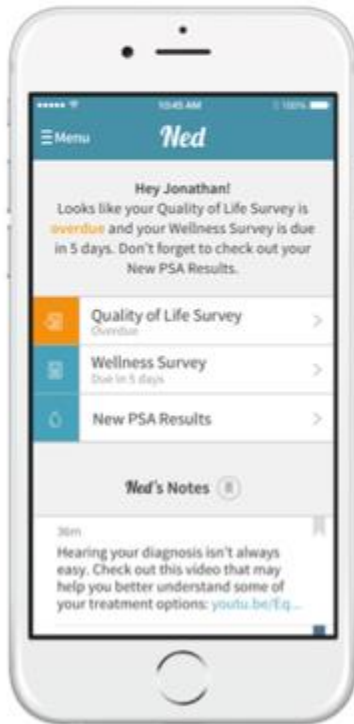

- UHN will manage one integrated funding model that covers for both in-hospital and homecare services
